AI Image Generation Templates

Prompts for creating course graphics with DALL-E, Midjourney, or Firefly

1. Workplace Scenario Illustration

[Scene type: office/retail/healthcare/etc.] showing [specific action].

Details:
• Setting: [specific environment]
• People: [number, roles, diversity]
• Action: [what they're doing]
• Mood/tone: [professional, collaborative, focused]
• Style: [photorealistic, illustration, simple flat design]

Example: "Office setting showing diverse team of three professionals collaborating at a whiteboard, professional and engaged, natural lighting, photorealistic style"

Keep it professional, inclusive, and relevant to the training content.

2. Concept Visualization

Create a visual representation of [abstract concept].

Style: [diagram, infographic, metaphorical illustration]
Elements to include:
• [Key component 1]
• [Key component 2]
• [Key component 3]
• Visual metaphor: [comparison]

Example: "Diagram showing customer journey as a winding path with 5 touchpoints, clean modern style, blue and orange color scheme, easy to understand"

Make it clear, simple, and focused on one concept.

3. Icon or Simple Graphic

Simple icon representing [concept/topic].

Requirements:
• Style: [flat, minimalist, line art]
• Color: [specific colors or monochrome]
• Use case: [course header, button, navigation]
• Size consideration: Should be clear at small sizes

Example: "Simple line art icon of a checklist with checkmarks, blue color, clean and minimalist, suitable for module headers"

Keep it simple and immediately recognizable.
