

Claude.md Starter Template

Give your project a memory

```
# Project: [Your Project Name]

## What This Project Does
[Brief description of what you're building]

## Tech Stack
- HTML/CSS/JavaScript
- [Any libraries or frameworks]

## Project Structure
- index.html - Main page
- styles.css - All styling
- app.js - Application logic

## Key Decisions
- [Decision 1]: Why we chose this approach
- [Decision 2]: What we tried and learned

## Current Status
- [x] Basic structure created
- [x] Styling implemented
- [ ] Add user authentication
- [ ] Polish and deploy

## Known Issues
- [Issue 1]: Description and plan to fix

## Next Steps
1. [Next feature to build]
2. [Then this one]
```
